Accessibility Statement

Website Accessibility Statement for Private Entities pursuant to Article 3, paragraph 1-bis of Law No. 4 of January 9, 2004

Declaration

Bosca S.p.A. is committed to making its website accessible in accordance with Law No. 4 of January 9, 2004. This accessibility statement applies to: https://www.glamti.com

Compliance Status: *Partially Compliant*

This website is partially compliant with the requirements set out in Appendix A of the UNI CEI EN 301549 standard due to the non-compliance issues listed below.

Non-accessible Content

The following content is not accessible for the following reasons—non-compliance with Law No. 4 of January 9, 2004:

- Requirement 9.1.1.1 – Some non-text content presented to the user does not have an equivalent text alternative serving the same purpose;

- Requirement 9.1.3.1 – In some cases, information, structure, or relationships conveyed by the page layout cannot be programmatically determined (or are not available through text);

- Requirement 9.1.2.3 – For some pre-recorded multimedia content, neither an alternative nor an audio description is provided;

- Requirement 9.1.4.3 – The visual presentation of text and images containing text does not always meet the minimum required contrast ratio, except where exceptions are allowed by law (e.g., logos);

- Requirement 9.1.4.5 – In some cases, images of text are used instead of plain text and are neither customizable nor essential to the conveyed information;

- Requirement 9.1.4.11 – For some essential components, including in different states, the color contrast with adjacent elements does not exceed the required 3:1 ratio;

- Requirement 9.2.1.1 – Some functionalities are not operable using a keyboard (or an interface with similar input);

- Requirement 9.2.2.2 – Some animations, flashing content, scrolling or auto-updating information that start automatically and last more than five seconds or run in parallel with other content do not provide mechanisms to stop or hide them;

- Requirement 9.2.4.1 – There is no mechanism to skip blocks of content repeated across multiple web pages;

- Requirement 9.2.4.3 – On some web pages that are navigated sequentially and where the navigation order affects meaning and functionality, some elements that can receive focus do not do so in an order that preserves their meaning and operability.

- Requirement 9.2.4.4 – The purpose of some links cannot be determined by the link text alone or in conjunction with adjacent content;

- Requirement 9.2.4.6 – Headings and/or labels do not sufficiently describe content or functionality;

- Requirement 9.2.4.7 – On some interactive elements, the focus indicator is not visible;

- Requirement 9.4.1.2 – In some cases, user interface components (including form elements, links, and script-generated components…) do not have the correct or properly set name, role, states, properties, and values, or users and their assistive technologies are not notified when these change.

- Requirement 9.4.1.3 – In some cases, status messages are not presented to the user in a way that allows assistive technologies to interpret them without moving the focus.

Accessibility Statement Drafting

This statement was drafted on June 25, 2025.

The evaluation was carried out by third parties through objective and subjective analysis (see Article 3, paragraph 1 of the Commission Implementing Decision (EU) 2018/1523).

The statement was last reviewed on June 25, 2025, in accordance with the recommendation to periodically (at least annually) review the accuracy of the contents of this accessibility statement.

Feedback and Contact Information

If you wish to contact the website owner, please use the following email address: contact@glamti.com

How to Submit Reports to AgID

In case of an unsatisfactory response or no response within thirty days of submitting a notification or request, the user may submit a report to AgID via certified email (PEC) to the following address: protocollo@pec.agid.gov.it

Website Information

1. Website publication date: January 25, 2024

2. Usability tests have been performed: Yes

3. CMS used for the website: WordPress
